the proper time I will offer rewards for the arrest and conviction of the men and I will urge the judge, the solicitor and the sheriff to make diligent efforts to apprehend them."

Wants Lynchers Arrested.

Governor Harris will have a conference with the three members of the state prison commission. Each of the commissioners was in Warden Smith's home the night Frank was taken. They had been making a regular inspection of the prison. The governor hopes to obtain information from the commissioners and probably some of the prison officials who were overpowered that will lead to the identification of some of the

lynchers. Only a few members of the gang wore masks. If the identification of any of the men is established the governor said today he would make every effort to have them arrested.

The Marietta end of the investigation was not pressed today. The coroner's jury, which held a brief session yesterday, adjourned until next Tuesday. Much interest attaches to what may be brought out when the jury assembles with the special counsel provided by the Cobb county commissioners. Official opinion here is that Milledgeville is the place for the investigation, or at least the beginning of it.

PRETTY GIRLS WILL CARRY MAIL ROUTE

BACHELOR WOMAN-HATERS SHUDDER AT PROSPECT OF THINGS TO FOLLOW

Geneva, Ill., Aug. 19.—Certain bachelors in this town have been losing as woman haters for many years.

Only a few persons know that they frequently receive perfumed notes addressed in feminine handwriting. Today these bachelors are shuddering—for Geneva is soon to have free mail delivery for the first time. But that isn't all!

Among the leading candidates for "carrier" positions are three of Geneva's popular young women.

The bachelors are blushing already as they think of the embarrassing situation which will develop when a pretty "mail girl" hands them delicate epistles from their secret sweethearts.

Believed They "Passed."

Miss Elsie Newman, Miss Grace Clarke and Miss Margaret Eler took the carrier-clerk civil service examination in St. Charles today, and all expressed the belief that they would pass with nearly perfect grades.

Of course all three declare they wouldn't say anything about the bachelors receiving "lilies-lux"—but then, they all belong to a girl's club which meets once a week, and who could blame a girl for talking just a little bit under such circumstances?

Miss Newman was the first to complete the examination. "I know the answers to all the questions and know I will make an efficient mail carrier in case I am appointed," she said as she left the West Side school in St. Charles, where the four-hour test was held.

IS SICKNESS A SIN?

If not, it's wicked to neglect illness and means of relief. It's wicked to endure liver ills, headache, indigestion, constipation, when one dose of Po-Do-Lax gives relief. Po-Do-Lax is Podo-phylin (May Apple), without the gripe. It arouses the liver, increases the flow of bile—Nature's antiseptic in the bowels. Your constipation and other ills disappear overnight because Po-Do-Lax has helped Nature to remove the cause. Get a bottle from your Druggist today. Get rid of your Constipation overnight.

GIANT CAUSEWAY WITH—

STOOD BIG STORM'S FURY

(CONTINUED FROM PAGE ONE)

and towns in dire peril. With large sections of the district yet unheard from the death list was more than 100, the heaviest reported loss, from Virginia Point, opposite Galveston. The property loss may exceed \$30,000,000, with Galveston contributing half that amount.

According to information available last night the deaths were recorded as follows:

Virginia Point 30, Texas City 18, Galveston 14, Morgan's Point 10, Sylvan Beach 3, Houston 2, Hitchcock 7, Laporte 7, Port Arthur 4, Lynchburg 3, Seabrook 3.

Property loss estimates were vague except in few instances. Houston, Texas City and Port Arthur advices gave fairly definite figures for those places, but most of the other towns reported in such phrases as "considerable," "very heavy" and "not yet estimated."

Some of the estimates were as follows:

Galveston \$15,000,000 or more.
Houston, \$2,000,000.
Texas City, \$400,000.
Port Arthur, \$200,000.
Seabrook, \$100,000.
Sabin, \$100,000.
Sabin Pass, \$100,000.
Kenah, \$50,000.

In addition there was an enormous loss to cotton growers in the storm belt, some estimates stating that 25 per cent of the crop of Central Texas was destroyed and placing the loss at "millions of dollars."

The oil fields also suffered severely and it is probable that it will take \$500,000 to replace destroyed derricks, re-cap unroofed tanks and repair damaged machinery.

That the death list did not approach that of the storm of 1900 was due to two causes—the strength of the Galveston sea wall and the haste with which residents of the coastal plains sought refuge in conformity

with the warnings of the government weather bureau.

Warning Came in Time.

San Antonio, Tex., Aug. 19.—Thank to the warning by the weather bureau thousands of people left their homes Monday night to seek shelter in the larger buildings in the central part of the city. Hotels were crowded to their full capacity, while office buildings held thousands. Citizens of Galveston are jubilant, in spite of the loss, estimated at ten millions, because the sea wall stood intact and did its duty although badly undermined. A great part of the property damage was caused by water from the bay in the rear of the island. Two-thirds of the buildings on the front were wrecked by water from the bay. Three disastrous fires in Galveston also added to the great damage.

The greatest need in Galveston now is food and water.

Storm at Texas City.

Describing the great storm at Texas City a correspondent writes:

"The wind was so great that the granite monuments built to commemorate the storm of 1900, were blown fifteen feet. Iron posts in concrete were bent double. The granite coping wall was wrenched loose and carried many blocks; wreckage from frame buildings was piled high in all parts of the city; wires and poles were in an indescribable tangle. One of the greatest losses is the great causeway; both approaches were battered out by wild barges. One was an oil barge and was one of six valued at ten thousand dollars each, all were lost.

"In point of size the loss to Texas City was greater than to Galveston."

BEAUTY PATCH IS FACE OF LOVED ONE

LATEST FAD COMES FROM EUROPE AND IS HAILED WITH DELIGHT

Chicago, Aug. 19.—The heart-breaking beauty patch which adorns Mady's cheek no longer is cut from linen plaster to work coquettish havoc upon male hearts.

It bears "his" picture, and is an expression of beautiful sentiment which has grown up out of the sordid reawakening of war.

The idea comes from Europe where every girl's sweetheart, near by, is away in the trenches or is preparing to go there. It says to all who look upon beauty, "I am giving the man of my heart to the cause."

In the early days the girl he left behind enclosed his photograph or miniature in a golden locket and put it secretly within the bodice of her gown, to rest upon her thumorous heart.

Now nations are in the balance; peoples are at stake. Every one must help. The girl that's left behind may be a daughter, a mother, a sister or even a cousin, as well as sweetheart. She wants every one to know she's helping.

Miss Vahl Vahl's conspicuous "beauty spot" has attracted considerable comment among her friends and the audiences who watched and listened to her in the "lady in red." It was "odd," many thought.

Close inspection betrayed upon the lady heart the strong face of a bonny ad in a Scotch uniform cap, his face a smile of grim determination.

Then was "something new under the sun" given to American girls.

NEWS VALUE.

The value of a bit of news depends entirely upon location. Mills Corners news is not important to Chicago, and Chicago news is not important to Mills Corners. It is important to Mills Corners to know that Ted Hawkins has bought a new hat. Excitement in the town will be at fever heat until it is known whether it is Arabella Simkins or Sarah Means.

That Ted Driscoll has put up a new fence is thrilling, because no one thought Ted had enough crops to be worth fencing; and besides, there is a hope that the building of the fence will involve Ted in a fight with Jim Billings, or perhaps a lawsuit, or both.

That Mame Simpkins has a visitor is important, for the whole town will be more or less affected, according to circumstances. Of course, the ladies will hope that the visitor will turn out to be older and homelier than themselves, and the young men will hope that she will turn out to be young and pretty. In direct proportion to her youth and prettiness she will affect the town economically, socially, and ethically.

If she goes to church, the attendance will increase during her visit; if she stays away the attendance will be smaller. Economically, the presence of the visitor will affect the candy store and ice-cream parlor as well as the hat, shoe and collar store and the photo gallery. If the girl be young and pretty, and also a sophisticated girl from "the city," it is certain that her stay will be momentous.

That Hiram Seragias went to Breuners last week is an item worthy of a large head, especially in the eyes of the Tobias family, where there are six unmarried girls, one of whom has been keeping company with Hiram.

That Sadie Budkins is going to have a party is very important to those who have been trying to collect various little bills from the paternal families, as well as to those who know they will be invited and those who know they will not be invited. Those who have not been invited know that they will be crowded over by those who have been, and those who are invited know that they will be talked about, and perhaps assassinated, by those who are not. Of course, there will be steps taken toward forming a retaliatory party.

That Ralph Dickenson is putting up an addition to his house gives rise to the universal opinion that he must have robbed somebody lately.

Herewith they felt that modern architects couldn't say as much.

One Big Fact Not Advertised

is the 2 1/2 grains of a harmful drug in the average cup of coffee.

Coffee roasters know that there is caffeine, a subtle, poisonous drug in coffee. But they dodge the issue and talk about flavor. Proof lies in the fact that some coffee concerns have tried, without much success, to rid coffee of its caffeine.

Daily blows of this coffee-drug finally result for most people, in nervousness, headache, heart flutter or some other form of caffeine poisoning.

You may not think coffee hurts you, but to be sure, quit coffee ten days and use the pure food-drink—

POSTUM

It is made of wheat and a bit of wholesome molasses. The tasty, Java-like flavour makes the change easy as well as beneficial—and there's no drug or other harmful element in Postum.

There are two forms of Postum: Postum Cereal—the original form—must be boiled—15c and 25c pkgs. Instant Postum—the soluble form—is made in the cup with hot water, instantly—30c and 50c tins. The cost per cup is about the same for both kinds.
